

Extreme Heat Prep Checklist

Service Pros Installation Group (SPIG) | Facilities Management

Ahead of Season

- A/C functioning in office areas
- Fans/portable cooling available for warehouse/dock areas
- Extra water/electrolyte supply stocked

Advance Notice (Heat Advisory/Warning)

- Water break frequency increased
- Staff briefed on heat illness signs: heavy sweating, weakness, nausea, dizziness = exhaustion; confusion, hot/dry skin = stroke, call 911
- No one left in a closed vehicle, ever
