

Winter Storm / Ice Prep Checklist

Service Pros Installation Group (SPIG) | Facilities Management

Ahead of Season

- Snow/ice removal vendor contract and pricing locked in before first storm
- Salt/ice-melt supply on hand
- Heat functioning; pipes in vulnerable areas insulated

Advance Notice (Watch/Warning Issued)

- Removal vendor confirmed on standby
- Salt/ice-melt staged at entrances, walkways, loading dock
- Outdoor lighting checked for early-darkness visibility
- Site vehicles/forklifts fueled if extended closure possible

Day-Of

- Walkways and dock salted before shift start
- Monitor flat/low-slope roof areas for snow load

Post-Storm

- Inspect roof for load damage
- Confirm walkways/dock cleared before reopening
- Report pipe freezes/heat failures to J.R. Doyle immediately
